

# PIPE BEVELER

***A fast, simple way to bevel pipe  
so that the cut-to-length pipe will fit  
easily into the bell.***

- Simply place the beveler on the pipe in a hand-held drill, and in 10 seconds you can bevel the pipe.
- Do the beveling easily - down in the ditch where you are working.
- Bevel 4" SDR 35 Sewer Pipe, Schedule #40 PVC, and Schedule #21 Water Pipe.
- The blade is made of hardened steel and can be replaced when needed.
